

Our Paving vs Imported Paving

- ✓ Our paving is made in Cork, from Irish sourced materials, creating employment here in Ireland.
- ✓ Our paving has better consistency in size and thickness therefore, less time is involved in it's laying thus, installation expense is reduced.
- ✓ Our paving is more cost effective to buy and to build with.
- ✓ **All** paving sold creates sales employment where as, sales of **our** paving creates Irish manufacturing employment as well.
- ✓ Every 70sq yards of our paving sold, ensures 8 hours of in house manufacturing employment.
- ✓ Established over 30 years we provide continuity of product and service with an in-depth knowledge of our product range, in what it can do and what it can't. *See our [Technical Advice page in the Services section of our website](#)*
- ✓ Our paving has lower carbon miles. *See our [Carbon Footprint info sheet on our website](#)*
- ✓ Our product can be used in any style of garden or landscape project.
- ✓ Our market research returns more than 90% customer satisfaction on the use of our products over many years. *See our [Customer Testimonials on our website](#)*
